

# EasyCare 7

simple but sophisticated mattress system

  
Med Therapeutics  
Therapeutic Surface Systems

# Med Therapeutics was created in 2018 by Dr Henning Lorenz – one of the founding fathers of two of the largest Therapeutic Support Surface providers in the world.

Using his many years of expertise in pressure area care, his knowledge of Therapeutic Support Surfaces & Mechanical (Dynamic) Therapy Systems, and his grasp of the technical requirements for this rapidly evolving field, he took much of his management, sales, technical and manufacturing team with him to set up a company that would lead the way in clinical excellence. It would become synonymous with the advance of telemedicine, remote fault diagnosis, remote pressure mapping and more importantly, proactive pressure reduction – the ability to take pressure to zero instantly when required.

Med Therapeutics is best placed to provide true clinical solutions to ITU / ICU critical situations, aged care providers, and community loan store providers across the world. Whether the problem be geriatric, bariatric, paediatric, intensive care and general wards, our years of experience, our deep understanding of the technical requirements and also our passion and commitment for tissue viability care means that we WILL have an answer for your patient.

With an office near Brighton, England, an office in Karlsruhe, Germany and an office in Taipei, Taiwan we have the world covered.

We have care covered.

# EasyCARE 7 overlay mattress system

The Easycare 7 mattress system is a fantastically priced replacement mattress system that has an alternating air cell therapy including 2" of foam in case of power outage. The Easycare range uses a single multi-functionality pump - operating at different pressures depending on chosen mode for cushion, overlay, 7" replacement and 8" replacement. This means that an entire clinical environment can be run using just one pump across a variety of support surfaces. Indicated for high risk patients, this system has a huge range of features and benefits, making it more than a match in comparison with far more expensive systems.

## Product Benefits (Mattress)

- 7" replacement mattress
- 17 replaceable cells
- 1 in 2 cell cycle
- CPR
- 2 way stretch waterproof vapour permeable zipped cover
- Fully launderable
- 2" foam internal base - for power failure & transport mode
- 200cm x 90cm x 18cm
- Patients up to 180kg

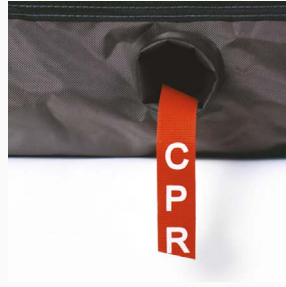

## Product Benefits (Pump)

- Weight setting up to 180kg
- Intelligent pressure sensing for optimum interface pressure
- Almost silent operation
- LCD screen
- Panel lock
- Low pressure and power failure alarms
- Multi-functionality- one pump operates at different pressures depending on chosen mode for: cushion, overlay, 7" replacement & 8" replacement
- Static & dynamic modes
- Stylish & intuitive design
- Automatically switches off when the optimum internal pressure is reached
- Mechanical (or Dynamic) Therapy loading & offloading fully allows perfusion and thus reactive hyperemia

## Features

Standard Connectors

Rapid CPR Label

## Technical Specifications

### Dimensions and weight

#### Mattress - 7" Replacement:

200cm x 90cm x 18cm

#### EC7 Pump:

29.5cm x 15cm x 12.2cm. 2kg

### Power

Power input: 220v-240v AC

### Material

Mattresses: Nylon/PU. Latex free.

### Max user capacity

180kg
